## Obama VS McCain

### Why you should vote for Barack Obama

by Jake Brown, 8th

People say that Barack Obama does not have enough experience to be President of the USA, but I say that is one of the most valuable assets to Obama.

For example he owes almost nothing to anyone, including big oil companies. That is one of the problems that exist with people like John McCain and the Clinton family. They have been around for a long time and owe favors to a lot of people. Obama doesn't. Another thing is that McCain voted with President Bush 90% of the time and wants us to stay in a war we shouldn't be in. He says he wants to change the government but how can you change if you vote with Bush 90% of the time.

### Why you should vote for John McCain

by Angelica Rocha, Rachel Oldendorf and  
Lissette Gomez, 4th

John McCain should be President because he has more experience and has done a lot more things as a senator. John McCain wants to end the war. McCain says that if we don't end the war now it will become bigger. He wants to lower gas prices and stop pollution. McCain also wants to help the families that cannot afford an education for their kids.
